In case a person has resided in the county where death occurred for less than one year, give address of FORMER RESIDENCE. The post office of the deceased may be in a county or state other than the county of actual residence.

IDAHO CODE ANNOTATED—CHAPTER 38, SECTION 206.

The personal and statistical particulars (items 1 to 16) shall be authenticated by the signature of the informant, who may be any competent person acquainted with the facts.

The statement of facts relating to the disposition of the body shall be signed by the undertaker or person acting as such.

The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The International classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. Causes of death, which may be the result of either disease or violence, shall be carefully defined; and if from violence, its nature shall be stated, and whether (probably) accidental, suicidal, or homicidal.

The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The International classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. Causes of death, which may be the result of either disease or violence, shall be carefully defined; and if from violence, its nature shall be stated, and whether (probably) accidental, suicidal, or homicidal.

And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The International classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. In case a person has resided in the county where death occurred for less than one year, give address of FORMER RESIDENCE. The post office of the deceased may be in a county or state other than the county of actual residence.

The statement of facts relating to the disposition of the body shall be signed by the undertaker or person acting as such.

The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The International classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. Causes of death, which may be the result of either disease or violence, shall be carefully defined; and if from violence, its nature shall be stated, and whether (probably) accidental, suicidal, or homicidal.

The statement of facts relating to the disposition of the body shall be signed by the undertaker or person acting as such.

The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The International classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. Regardless of the fact that the person may have lived his entire life at the place of death, ALWAYS COMPLETE ALL PARTS OF THIS ITEM. In case a person has resided in the county where death occurred for less than one year, give address of FORMER RESIDENCE. The post office of the deceased may be in a county or state other than the county of actual residence.

The personal and statistical particulars (items 1 to 16) shall be authenticated by the signature of the informant, who may be any competent person acquainted with the facts.

The statement of facts relating to the disposition of the body shall be signed by the undertaker or person acting as such.

The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The International classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. AFFIDAVIT OF GENE FUZZELL, SHERIFF OF IDAHO COUNTY, IDAHO

STATE OF IDAHO)
) ss.
County of Idaho)

I, GENE FUZZELL, the sheriff of Idaho County, State of Idaho, do hereby certify and declare as follows:

That on or about the 29th, day of November, 1972, I received a report of a light plane overdue on a flight to Kamiah, Lewis County, Idaho.

I investigated and it was determined that this light plane piloted by Alfred Lloyd Johnson of Kamiah, Idaho, was missing on a flight from Walla Walla, Washington, to Kamiah, Idaho.

My investigation showed that the plane made one low approach over the Kamiah, Idaho, airport and apparently at this point, some difficulty developed and the pilot pulled up out of the pattern and proceeded in an easterly direction. My investigation showed that the plane flew in an erratic manner over the mountains to the east of Kamiah, indicating that the pilot had either, in some way, been injured or was possibly ill.

The plane disappeared and I conducted, in conjunction with the Idaho State Department of Aeronautics and the Idaho State Police an extensive search of the entire area where the plane was believed to be down. Our search, both by air and by ground did not disclose the wreckage or any clue as to what happened to the plane and the pilot.

It is my official opinion that Mr. Alfred Lloyd Johnson is dead. A few days after the plane disappeared, this area was subjected to severe cold

AFFIDAVIT OF FRANK ENGLAND, KAMIAH IDAHO

STATE OF IDAHO)
) ss.
County of Lewis)

I, FRANK ENGLAND, of Kamiah, Idaho, do hereby certify and declare as follows:

I am a resident of Kamiah, Lewis County, Idaho. I have been a resident in this area for 3 or 4 years and have, until very recently, owned and operated Kamiah Aviation at the Kamiah Airport in Kamiah, Idaho.

I still fly extensively out of the Kamiah Airport and I am a retired military pilot with thousands of hours of flying time.

I have participated in many search and rescue operations and I had an occasion to participate in the search for ALFRED LLOYD JOHNSON, who disappeared in a light plane on a flight from Walla Walla, Washington, to Kamiah, Idaho, on or about November 29, 1972.

Mr. Johnson was known to be in the Kamiah vicinity when he closed his flight plan that evening and a plane resembling his was visualized by a number of people in the area. The plane was seen to be flying in an erratic manner over the farm lands and the mountains just East of the Kamiah airport.

I believe that on approach to the Kamiah Airport, the pilot was in some way injured or taken ill and was unable to land. I am familiar with the aerodynamic qualities of the plane he was flying, a Cessna 206. I am convinced under the circumstances, that his plane went down somewhere East of Kamiah, probably in the Yakus Creek drainage.

AFFIDAVIT OF FRANK ENGLAND, KAMIAH IDAHO

ss.

County of Lewis)

I, FRANK ENGLAND, of Kamiah, Idaho, do hereby certify and declare as follows:

I am a resident of Kamiah, Lewis County, Idaho. I have been a resident in this area for 3 or 4 years and have, until very recently, owned and operated Kamiah Aviation at the Kamiah Airport in Kamiah, Idaho.

I still fly extensively out of the Kamiah Airport and I am a retired military pilot with thousands of hours of flying time.

an occasion to participate in the search for ALFRED LLOYD JOHNSON, who disappeared in a light plane on a flight from Walla Walla, Washington, to Kamiah, Idaho, on or about November 29, 1972.

Mr. Johnson was known to be in the Kamiah vicinity when he closed his flight plan that evening and a plane resembling his was visualized by a number of people in the area. The plane was seen to be flying in an erratic manner over the ferry lands and the mountains just East of the Kamiah airport.

I believe that on approach to the Kamiah Airport, the pilot was in some [illegible] and was unable to land. I am familiar with the aerodynamic qualities of the plane he was flying, a Cessna 206. I am convinced under the circumstances, that his plane went down somewhere East of Kamiah, probably in the Yakus Creek drainage.

I participated in, and assisted in directing, an aerial and ground search but no trace of this plane was found.

Approximately 3 days after Mr. Alfred Lloyd Johnson disappeared, the area was subjected to extremely bitter winter weather and I do not believe that he could have survived this bitter cold, even if he was not killed in the crash of his plane.

Is my belief, therefore, based upon long experience in military and civil aviation, and based upon the extent of the search and rescue operation, that Mr. Alfred Lloyd Johnson is dead.

I believe he perished either in the crash of his plane, which has not yet been found, or that he perished from exposure in the bitter cold that was visited on this area, shortly after this accident.
